

...from the Isenj. He accepts their offer but knows that ...

1. Find first sub-word token

...###nj . he accept ###s their offer ...

2. Find tokens in a fixed-size window

...###nj . he accept ###s their offer ...

3. Obtain representations

$\{ \vec{\text{he}}, \vec{\text{accept}}, \vec{\text{###}} \}$

4. Combine representations

$$\vec{\text{accept}} = \vec{\text{he}} + \vec{\text{accept}} + \vec{\text{###}}$$
